

Policy 3.29

Prohibition on Mixed Credit High School Classes Policy

BCCC does not offer courses which combine students enrolled in college courses with students who are only receiving high school credit. High school students who wish to participate in college classes must apply to, be qualified for, and be admitted to the college in coordination with high school liaisons. High school students who have not been admitted to the college will not be allowed to participate in college classes for the purpose of obtaining high school credit. All college coursework offered to dually enrolled high school students will be taught by an appropriately qualified college employee.
