

Beaufort County Community College

CREDIT FOR PRIOR LEARNING STUDENT HANDBOOK

An overview of the processes for awarding college credit for non-traditional learning. These credits apply to certificate, diploma, and degree programs at Beaufort County Community College (BCCC). These credits may or may not transfer to other colleges or universities pending review by the educational institution.

Original Version Published: September 21, 2015

[Online Credit for Prior Learning Handbook](#)

Beaufort County Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of Beaufort County Community College. The Commission is to be contacted if there is evidence that appears to support an institution's significant non-compliance with a requirement or standard.

Introduction

Credit for Prior Learning (CPL) provides the opportunity for students at Beaufort County Community College (BCCC) to be awarded college credit based upon knowledge and skills gained outside of a college classroom. It validates what students have already learned and can reduce the number of courses needed to complete a certificate, diploma, or degree. By eliminating duplicate coursework, CPL can shorten the time required to earn a credential and reduce tuition costs.

The purpose of this handbook is to assist students by introducing the various methods available at BCCC for obtaining credit for college-level work obtained outside the traditional classroom experience. Students may earn college credits from learning experiences such as military service, industrial or corporate training programs, apprenticeship programs, and successful completion of standardized exams (i.e., AP, CLEP, DSST).

Prior learning credits are aligned with specific BCCC courses. The amount of credit awarded is determined using the North Carolina Community College System's [Combined Course Library](#). Faculty and Lead Instructors, in cooperation with the appropriate Academic Dean and the Vice President of Academic Affairs, will determine which courses will be approved based on the learning experiences outlined by the student.

Per the BCCC [Graduation Requirements Procedure](#), students must complete a minimum of 25 percent of hours required for a certificate, diploma, or degree in residence at Beaufort County Community College; therefore, CPL may be used to satisfy up to 75 percent of a certificate, diploma, or degree.

Credit Sources

Credit for Prior Learning (CPL) may be awarded through:

A. [College-Level Examination Program \(CLEP\)](#).

CLEP is a program that offers the student the opportunity to earn college credit for knowledge acquired outside the conventional classroom. College-level competency may have been acquired through personal reading, formal study, job experience, non-credit course work, television-taped courses, correspondence courses, military training, adult courses, and advanced studies in high school. Questions regarding the CLEP Testing Program, score requirements, and credit should be directed to the Registrar. CLEP scores are valid for five years per numbered memo CC23-041 (NCCCS, 2024).

B. [Subject Standardized Tests \(DSST\)](#)

DANTES Subject Standardized Tests (DSST) are credit-by-examination tests originated by the United States Department of Defense's Defense Activity for Non-traditional Education Support (DANTES) program. The program is an extensive series of 38 examinations in college subject areas that are comparable to the final or end-of-course examinations in undergraduate college courses. These tests are frequently used in conjunction with CLEP tests by students pursuing college degrees in non-traditional formats. Whereas CLEP tests are almost exclusively used for lower-level credit at regionally accredited institutions, DSSTs are available for both upper and lower-level credit. Questions concerning score requirements and credit should be directed to the Registrar. DANTES scores are valid for five years per numbered memo CC23-041 (NCCCS, 2024).

C. [Advanced Placement \(AP\)](#)

[The College Board](#) sponsors an advanced placement program that enables high school students to complete college-level courses while still in high school, to demonstrate college-level achievement through examinations, and to receive college course credit when they matriculate to an institution of higher education. Questions concerning score requirements and credit should be directed to the Registrar. AP scores are valid for five years per numbered memo CC23-041 (NCCCS, 2024).

D. Credit by Examination

Under certain conditions, a student may be awarded credit by taking departmental proficiency examinations and/or standardized tests in a particular subject area. Applications for credit by examination should be completed at least two weeks prior to the test administration. A student is eligible to take only one examination per course.

A student seeking credit by examination must follow the guidelines published in the [Advanced Standing and Transfer Credit Procedure](#). Credit by examination should be requested utilizing the [Credit by Examination Form](#).

E. Published Guides

The American Council on Education (ACE) [Guide to College Credit for Workforce Training](#) contains ACE credit recommendations for formal courses or examinations offered by various organizations, from businesses and unions to the government and military.

F. Portfolios (Work Experience)

A portfolio is an organized collection of essays and documentation demonstrating a student's learning through work and life experiences. Through the portfolio, students' show that the knowledge they have gained through experience is equivalent to college training. See [Appendix C](#) for instructions.

G. Industry Standard Certifications

These certifications reflect current industry standards for which BCCC has determined course equivalencies and credits. Upon submission of official documentation, an evaluation will be conducted and applicable credit may be awarded to the student's transcript.

Credit for Prior Learning Procedure

Students interested in applying for CPL should complete the following steps:

1. Consult BCCC's current online catalog and review the course requirements for your certificate, diploma, or degree program. Identify any courses for which you feel you have relevant, equivalent college-level experience.
2. Complete the [Credit for Prior Learning Self Assessment](#) form, prior to meeting with your program lead instructor.
3. Contact your program lead instructor to discuss the different methods and steps for requesting CPL.
4. Determine which methods you wish to use to obtain CPL credit. ([See Credit Sources](#)).
5. If you choose standardized testing, contact the Registrar's Office for testing details.
6. If seeking credit from published guide sources, contact the Registrar's Office for verification details.
7. If pursuing portfolio credit, consult with your program lead instructor to identify an acceptable subject matter expert to evaluate your portfolio. *
8. If pursuing the Credit by Examination option: download, print, and complete the [Credit by Examination Form](#). *
9. If pursuing credit via industrial certifications, consult with your program lead instructor to determine the courses for which you may be eligible for credit.

*Cost/fees for these evaluations/exams to be determined by BCCC at time of request.

Credit for Prior Learning Appeal Procedure

Students may appeal a course credit denial and request re-evaluation of Credit for Prior Learning source (transfer credit, portfolio, standardized test, etc.) by following these steps.

1. Obtain a copy of the course syllabus, course description, and any supporting documentation from the origination institution(s) that supports the appeal as is relevant.
2. Review credit denial with academic advisor.
3. Retrieve the [Notice of Appeal Form](#).
4. Submit the completed Notice of Appeal Form and supporting documentation to the appropriate dean. Students should retain a copy for their records.
5. Students dissatisfied with the Academic Dean's decision can opt to appeal to the Vice President of Academic Affairs.
6. If dissatisfied with the Vice President of Academic Affairs decision, further appeal processes then revert to the [Student Rights and Due Process Policy](#).

Automotive Services Excellence (ASE) Certifications

Credit should be awarded to prospective students who have passed 1 initial certification and 1 recertification. This ensures students have completed a minimum of 6 years of work experience in the area they wish to receive credit. Most manufacturers offer brand specific training and should be examined on a case-by-case basis, but should not be used to eliminate initial ASE testing.

Licensed Practical Nurse (LPN) to Associate Degree Nursing (ADN) Transition Program

- The LPN to ADN Transition program at BCCC offers students who have completed the Licensed Practical Nursing diploma the ability to utilize their education and work experience to finish the Associate Degree Nursing program in three semesters. To be considered for the program, students must have completed a NCBON approved, or regionally accredited Practical Nursing Program within two years of application date (official transcript required) or have [verification of 12 months of employment](#) within the past 2 years as a LPN functioning in a role requiring practical nursing skills. Students accepted into the program are given credit for NUR 111, NUR 112, NUR 113, and NUR 114. Students will enter into the summer semester and complete NUR 214 Nursing Transitions. They will join the traditional cohort the following fall to complete the remainder of the ADN sequencing. Students must complete the [BCCC LPN to RN CPL Equivalency Approval Form](#).
 - (Kent Dickerson, BCCC Director of Nursing, November 2023)

Medical Laboratory Technician (MLT)

MLT students with previous experience or coursework in phlebotomy should receive credit to MLT-271 Practicum III (1 credit hour), which is a 48-hour clinical experience dedicated to learning phlebotomy skills.

To receive credit a student should have either: 1) successful completion of a curriculum of continuing education phlebotomy course, 2) a certification listed below, or 3) documented extensive phlebotomy experience (to be reviewed by the MLT program director).

Certification	BCCC Equivalency	Hours
American Society of Clinical Pathology (ASCP) – Phlebotomy Technician (PBT)	MLT 271	1
American Society of Phlebotomy Technician (ASPT) Certification (CPT)	MLT 271	1
Documented completion of a curriculum or continuing education phlebotomy course	MLT 271	1
Documented phlebotomy experience <i>Approved by program director</i>	MLT 271	1

Certified Welding Industry (CWI) Certification

Credit should be awarded to credentialed students who have passed their initial certification and a minimum of one recertification. This ensures students have completed at least 6 years of certified work experience in the area they wish to receive credit for. Students applying for Credit by Examination for noncertified welding courses (ex. WLD-110) are required to have a minimum of five years of work experience.

EDU-3002 Child Development Associate (CDA) Credential	S-Satisfactory	EDU 119 Intro to Early Childhood Education AND EDU 151 Creative Activities	EDU-119 (4)/EDU-151 (3): (7 total)

Process:

Students who have completed Continuing Education courses that qualify for Credit for Prior Learning must successfully complete the class through Continuing Education with a grade of “S” for satisfactory. The chart within Appendix B displays the Continuing Education classes that currently qualify for Credit for Prior Learning credit within curriculum and the number of hours which will be awarded. Successful completion is based upon the competencies learned within the class whether it be a parallel course built identical to the Curriculum class or a Continuing Education class that satisfies the competencies of a curriculum class.

Students need to complete the Beaufort County Community College [CPL Equivalency Approval Form](#), located on the BCCC website under [Forms](#), with approval of the lead instructor and division chair of the program which they are requesting credit.

Appendix C

Portfolio Credit

A portfolio is an organized collection of essays and documentation demonstrating your learning through work and life experiences. Through the portfolio, you show that the knowledge you have gained through experience is equivalent to college training. In gaining academic credit through your experiences outside the college classroom, you must be able to identify and document your experiences and learning.

Your first step should be to meet with your instructor and the program lead instructor for the course for which you are seeking credit. Together, you will examine the syllabus, learning outcomes and learning objectives for the course in which you want credit. Your portfolio will need to describe and present evidence of your past learning that meets the course objectives outlined in the syllabus.

Items to be included in your portfolio may include but are not limited to:

- A. Expanded resume to include educational background and experience, employment history, relevant specialized training, relevant life experience, and references.
- B. A personal essay that explains your long-term career goals; what you have accomplished; what you have left to achieve; the knowledge and competencies gained through experiences and how that relates to course learning objectives; and how your portfolio supports your goal of attaining the degree you have chosen.
- C. Supporting documentation which includes any evidence you wish to submit to support your claim of meeting the course learning objectives.
- D. Any additional information required by the course instructor.

Reference: Portfolio Example by clicking ([here](#)).

Appendix D

Local Articulated Course Agreement

Beaufort County Community College and Beaufort, Hyde, Tyrrell, and Washington
County Schools

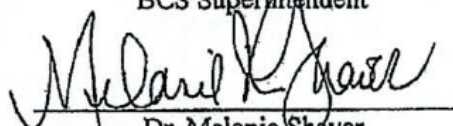

Articulated credit is credit that is granted in specific courses by Beaufort County Community College to students who have satisfactorily completed equivalent high school courses. 111 general conditions and procedures for granting credit by articulation, shall be as follows:

- High school courses for which articulated credit is granted must have been completed with the grade and conditions as specified in the statewide agreement and the attached List of Courses Articulated on February 23, 2024.
- The student must enroll in a curriculum program within two years after leaving high school or as approved by the Beaufort County Community College registrar and department heads.
- The student is enrolled during the semester credit is granted.
- Students who receive articulated credit will not be required to register and pay tuition for courses for which they receive such credit.
- **The Microsoft Office Specialist credentials will provide articulated credit for courses and are exempted from the expectation of the course and grade conditions specified in the statewide agreement. If the credential is earned, the articulated credit will be provided to the student.**

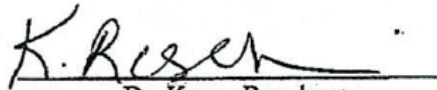

This Articulated Credit Agreement will become effective for students who enroll at Beaufort County Community College beginning with the 2024 fall semester. This agreement shall be reviewed and updated as needed.
